Professional Summary

Full-Stack Developer with hands-on experience in building scalable web applications using JavaScript, Node.js, React.js, PHP (Laravel), MongoDB, and MySQL. Strong background in Python automation and AI-driven workflows, including AI automation tools and OpenAI integrations. Skilled in designing REST APIs, integrating front-end and back-end systems, and delivering clean, maintainable code. Experienced across all layers of the stack, debugging complex issues, and deploying applications on AWS.

Core Skills

Front-End: React.js, JavaScript (ES6+), HTML, CSS, Bootstrap, jQuery, AJAX, Vue.js (Basic)

Back-End: Node.js, PHP, Laravel 8, Python Automation, REST API Development

Databases: MongoDB, MySQL, SQL

Cloud & DevOps: AWS (EC2 – Basic), Git, GitHub, Bitbucket

Other: JSON, XML, SOAP API Integrations, Google Maps API, MVC Architecture, Database Migration, Linux (Ubuntu), AI Automation (Zapier, Make, n8n), AI Model Integration (OpenAI API)

Front-End: React.js, JavaScript (ES6+), HTML, CSS, Bootstrap, jQuery, AJAX, Vue.js (Basic)

Back-End: Node.js, PHP, Laravel 8, REST API Development

Databases: MongoDB, MySQL, SQL

Cloud & DevOps: AWS (EC2 – Basic), Git, GitHub, Bitbucket

Other: JSON, Google Maps API, MVC Architecture, Database Migration, Linux (Ubuntu), AI Automation (Zapier, Make, n8n), AI Model Integration (OpenAI API)

Professional Experience

Software Engineer

Phenom People – Vishakhapatnam

May 2021 – Present

- Built end-to-end full-stack features using React.js on the front-end and Node.js / Laravel on the back-end.
- Designed and implemented REST APIs used across multiple internal systems.

- Improved UI performance by optimizing React components.
- Integrated MongoDB and MySQL for data storage; handled schema creation and migrations.
- Used AWS EC2 for deployments and environment management.
- Developed ATS-related modules ensuring high availability and error-free functioning.
- Debugged production issues and delivered cleaner modular code.
- Collaborated with cross-functional developers using Git, GitHub, and Bitbucket.
- Integrated Workday SOAP APIs to exchange candidate data and pull job postings directly from Workday, enabling seamless ATS synchronization and improved data accuracy.
- Integrated SAP SuccessFactors APIs to send candidate data and retrieve posted jobs into the ATS for smooth, enterprise-level HRIS-ATS communication.

Associate

Wipro Ltd – Kolkata, India

Jan 2019 – May 2021

- Developed full-stack modules using Node.js, Laravel, React.js, HTML, CSS, Bootstrap, jQuery, and AJAX.
- Built and consumed REST APIs for different applications.
- Worked with MySQL and MongoDB for CRUD operations and optimized queries.
- Used AWS EC2 for hosting and basic environment setup.
- Provided support for UI enhancements and bug fixing.
- Gained exposure to Vue.js and implemented small features.

AI Automation Projects

- Built workflow automations using Zapier and Make to streamline data sync between internal applications, reducing manual effort.
- Integrated OpenAI APIs into existing systems to enable auto-generation of content and intelligent form processing.
- Created internal productivity tools using n8n for automated alerts, reporting, and background task execution.
- Implemented AI-powered chatbot features to enhance user experience and reduce support response time.
- Automated repetitive backend tasks using Python scripts for data processing, cron jobs, API-based triggers, and system monitoring.
- Built Python-driven internal tools to trigger AI workflows, preprocess datasets, and integrate with automation platforms like Zapier, Make, and n8n.

Education

BE – Electrical, Electronics & Communication Engineering

RGPV, Bhopal — Dec 2018

Intermediate (Science)

St. Joseph Public School, Muzaffarpur — Dec 2013

High School

DAV Public School, Runni Saidpur — Dec 2011
